

2014 Civic Involvement Report

2014 Calendar Year General Mills political expenditures

As a corporate citizen, we occasionally support the legislative process by contributing prudently to state and local candidates and political organizations when such expenditures are permitted by federal, state and local law. We recognize the importance of accountability and transparency for our political expenditures. [Our policy](#) describes our approval process for using corporate funds for political expenditures. The Public Responsibility Committee of our Board of Directors reviews our policy, and we disclose all direct political donations.

Purpose of Trade Association Memberships

General Mills advances its mission by partnering with others that share our goals. Trade associations and other independent groups help advance these goals, and provide many other benefits including professional development, best-practice sharing, and business support services. For these reasons, we belong to many associations worldwide and are active members of the associations to which we belong.

Reporting on Major U.S. Trade Association Memberships

We provide an annual report of our leading U.S. trade association memberships for lobbying purposes. Each group is required to provide a breakout of the portion of dues or payments made that are used for lobbying purposes and thus non-deductible for tax purposes. Below is a list of groups to which the portion of our payments for the reported calendar year allocated for lobbying purposes is \$25,000 or greater. This list does not include groups of which we are members solely for business or marketing purposes rather than public policy, lobbying or advocacy.

- Grocery Manufacturers Association
- Business Roundtable
- Alliance for American Advertising
- Minnesota Business Partnership
- Minnesota Chamber of Commerce

Compliance Statement: The Company was in compliance with the General Mills Civic Policy for the time period covered by the report.
